

# ABBYY FineReader Pro for Mac and FineReader 12 Professional

## Comparison Chart

	FineReader Pro for Mac	FineReader 12 Professional
<b>OCR &amp; Document Conversion Technology</b>		
Unmatched recognition accuracy	•	•
Excellent layout retention	•	•
ADRT® (Advanced Document Recognition Technology®) for entire document structure reconstruction with original formatting (incl. headers, footers, footnotes, captions, page numbering, etc.)	•	•
Recognition languages / languages with dictionary support	189/45	190/48
User's dictionary creation and patterns training	—	•
Asian languages support (incl. Chinese, Japanese, Korean, Thai, Vietnamese)	•	•
Multilingual recognition with any number of languages in a document	•	•
Barcode recognition	• (in manual mode)	•
<b>Scanning</b>		
Scanner/MFP type support	ICA-compatible	TWAIN- and WIA-compatible
Multi-page scanning	•	•
ADF and duplex scanning options support	•	•
Manage scanning process with scanner button	•	•
<b>Supported Formats</b>		
Input formats	PDF, TIFF, JPEG, JPEG 2000, PNG, BMP, GIF, PCX, DCX, JBIG, JBIG2	PDF, TIFF, JPEG, JPEG 2000, PNG, BMP, GIF, PCX, DCX, JBIG, JBIG2, DJVU
Output: document saving formats	DOCX, RTF, ODT, TXT, XLSX, PPTX, PDF, PDF/A, HTML, EPUB®, FB2, CSV	DOC, DOCX, RTF, ODT, TXT, XLS, XLSX, PPTX, PDF, PDF/A, HTML, EPUB, FB2, CSV, DjVu, XPS, VCF
Output: image formats	TIFF, JPEG, JPEG 2000, PNG, BMP, PCX, DCX, JBIG2	TIFF, JPEG, JPEG 2000, PNG, BMP, PCX, DCX, JBIG2
<b>Ease-of-use &amp; Productivity</b>		
UI languages supported	7	24
User interface	Advanced Mac OS X native interface with Quick Tasks	Advanced interface with Quick Tasks
Quick Task	•	•
Automatic detection of document languages	•	•

Batch processing	• (via AppleScript and Automator)	—
Task automation & scheduling	• (via AppleScript and Automator)	—
Correction of recognition areas (Area Editor): rectangle and non-rectangle areas, vertical, upside-down, RTL and hieroglyphic text area drawing	•	•
Fast recognition and black&white recognition modes	—	•
Multi-core support	•	•
Saving any project in progress to a specific FineReader document format to return to it later	•	•
ABBYY Screenshot Reader - text and image capture tool	—	• (for registered users)
Section 508 compliance	•	•
<b>Editing Documents and Pulling Quotes and Data</b>		
Document editing within the program (Text Editor)	—	•
Verification and proofreading in FineReader	—	•
Exporting document with highlighted indefinitely recognized symbols	•	•
Style Editor	—	•
Fast document quotation (recognize selected area&copy to clipboard)	•	•
<b>PDF Conversion, Saving &amp; Protection</b>		
Create searchable PDF	•	•
Create PDF/A for a long-term archiving	•	•
MRC compression	•	•
Save to PDF and PDF/A of different types (text-under-image, image-under-text, image only, text and pictures)	•	•
Convert PDF (even scanned) to editable formats	•	•
Convert password-protected PDFs (if the password is known)	•	•
PDF bookmarks reconstruction	•	•
Add/edit PDF properties	• (add properties)	•
<b>Digital Photos Conversion and OCR</b>		
Convert digital photos of documents	•	•
Automatic correction of digital images (correction of image resolution, improved texture filtering, straighten curved text lines and image de-skewing; ISO noise, 3D perspective, motion blur correction)	•	• (plus despeckle, trapezium crop, color marks removal, lightening backgrounds, detecting page edges (trimming page borders), inverting images)
Manual tools for photo enhancing (brightness&contrast, splitting dual pages, straighten curved text lines, reducing ISO noise, removing motion blur, crop, correction of trapezium distortions, and more)	•	• (plus levels and recommended preprocessing)
<b>E-books Creation</b>		
Create E-books in FB2 and EPUB formats	•	•
<b>Document sharing and workplace synchronization</b>		
Send results as an email attachment	•	•
Export to Microsoft® SharePoint®, integration with SharePoint Online and Microsoft Office 365	—	•
